

Asanté Fast 10/100 PCI Adapter for the Mac & PC... A Flexible Solution for Day-to-day Workgroup Computing or High-bandwidth Applications

Asanté Fast 10/100 Adapter

Asanté's 10/100Mbps Adapter for Flexible Computing

- This 10/100 adapter is ideal for day-to-day workgroup computing as well as resource intensive CAD/CAM, client/server database, multimedia, prepress, mission critical, and server applications.
- Workgroups will experience increased performance with 10 or 100Mbps, determined automatically to achieve maximum speed.

Performance and Flexibility

- The 32-bit bus mastering design allows maximum data throughput while minimizing the burden on the host CPU, thus affording maximum efficiency.
- Support for the Asanté Fast 10/100 adapter provides flexible migration from 10 to 100Mbps networking via one RJ-45 uplink port.
- For added performance, this 10/100 adapter supports full-duplex mode for increased throughput.
- With NWay auto-negotiation, installation and configuration of your network devices is simple. This dynamic feature automatically detects and configures 10 or 100Mbps operation at full or half-duplex, to ensure you are achieving optimum network performance without user intervention.

NWay Auto-negotiation

Ease of Installation and Use

- Its plug-and-play design makes integration of your PCs and Macintoshes easy—to get you up and running in no time.
- Easy to read LED lights provide at-a-glance management displaying link integrity, data traffic, full-duplex, and 10/100Mbps operation.
- Asanté's Fast 10/100 adapter supports all popular network operating systems, including AppleShare®, AppleTalk, Novell NetWare, TCP/IP, and other NDIS and ODI-compliant operating systems. Computer operating systems supported include, Apple System 7.5.2 or higher, Microsoft Windows® 95 and 98, Microsoft Windows for Workgroups, Microsoft Windows NT, and others.
