

The **FriendlyNET 696 Fast Ethernet Adapter** is the latest generation 10/100 Mbps network interface card designed for all computer systems. This new adapter boasts a single-chip low power design that reduces power consumption and supports advanced networking protocols such as VLAN and Jumbo Frame. This adapter connects to any industry standard 10/100 Ethernet switch or hub. Designed to give you the ultimate in performance and flexibility, The FriendlyNET 696 Fast Ethernet Adapter is the ideal solution for both day-to-day workgroup computing to the heavy demands of high-bandwidth applications.

- Dual-Platform design supports both Mac and PC operating systems
- Supports Wake On LAN (WOL) power management technology
- Integrated Virtual LAN (VLAN) and Jumbo Frame support
- Single-chip, low power design reduces power consumption
- Full-Duplex mode doubles network data rate to 200 Mbps
