

## **MacConi NuBus Ethernet Adapter Cards**

### **RELEASE NOTES**

Thank you for purchasing an Asanté Ethernet product! This document includes important information not yet described in the manual. Please read the READ ME FIRST file on the EtherTalk Installer diskette. It contains information on the latest version of the EtherTalk Installer software, software release notes and how to contact Asanté should you experience any problems.

#### **About Asanté MacConi Adapter Compatibility**

1. Asanté MacConi NuBus Ethernet adapters are compatible with all Macintosh computers with a NuBus slot, including Performa 600, Centris 610, Centris 650, Quadra computers, and the Duo Docking Station.

NOTE: Installing MacCon NuBus adapter into a Centris 610, requires an Apple Centris 610 NuBus Adapter, part number M1402LL/A.

2. Asanté products are compatible with Macintosh System Software 6.08 and above.

#### **Asanté EtherTalk Installer Diskette**

The Asanté MacConi products contain new Asanté network software. If your network contains more than one Asanté Macintosh Ethernet adapter, we recommend that you install the updated software on all appropriate computers with Asanté network adapters. Detailed instructions are in the READ ME FIRST file on the EtherTalk Installer diskette.

#### **Mail Us Your Registration for Lifetime Warranty**

Please mail in your product registration card today to activate the warranty and receive free technical support. MacConi NB adapters are backed by a lifetime warranty. By returning your registration card you will also receive new information on updates and new products.

#### **Package Contents of MacConi NuBus Products**
